Dear and Dr. Gonzalez-Reyes,

I would like to introduce myself as the Journal Specialist for *Frontiers in Molecular Neuroscience*.

I am getting in touch about the success of your article "Involvement of Astrocytes in Alzheimer's Disease from a Neuroinflammatory and Oxidative Stress Perspective". During 2017, your article has received the second most citations in our Journal and it has widely impacted the community, including our 2020 impact factor.

We would like to thank you for your contribution to making science open. Given our interest in your work, *Frontiers in Molecular Neuroscience* would like to offer you the opportunity to host a new article collection and showcase your area of research.

Would you be interested in bringing your expertise to such a project? I would be delighted to set up a call in the coming weeks to discuss further details with you. Please let me know your availability.

Kind regards,

Cosima
